### FUNERAL OF CAPTAIN KING

Remains of Late Minister of Interior Laid to Rest.

By Side of Wife's Father—Large Turnout in Procession—Masonic Services at Temple and Grave.

The remains of the late Captain J. A. King, Minister of the Interior, were interred in the family plot in Nuuanu Cemetery Sunday afternoon. The funeral was one of the largest that has been seen in Honolulu for a long time.

The body lay in state during the late forenoon and early afternoon, hundreds of people viewing the face of the deceased for the last time.

Shortly before the time set for the funeral the Masons gathered in the Temple and there held services. After this they marched to the Executive building and then around the coffin, viewing the remains.

Shortly after 3 o'clock, eight stalwart native policemen lifted the coffin from its place in the throne room and, preceded by the pall-bearers—E. A. Mott-Smith, W. O. Smith, J. A. Hassinger, W. F. Allen, J. A. McCandless, C. B. Ripley, C. L. Wight and K. R. G. Wallace—carried it down the front steps under the crossed swords of the Masonic Commandery and placed it in the hearse.

The procession was formed very quickly, Marshal Brown, with Deputy Marshal Chillingworth on his right and Captain Parker on his left, taking the lead. Just behind were about twenty of the Mounted Patrol under Captain Spillner, and then about thirty foot police under Captain Kanaka.

The National Guard was headed by the band, at the head of which rode Col. Jones and his staff. Each battalion was preceded by its major and staff. Following the National Guard was one battery of the Sixth Artillery under Captain Marsh and then a detachment of bluejackets from the Iroquois.

The Masons, headed by the commandery and numbering over a hundred strong, marched just in front of the hearse.

Following the hearse were the chief mourners, President Dole and staff and the remainder of the local and foreign officials as already agreed upon. There were in the neighborhood of eighty carriages in line.

As the procession started from the Executive building the firing of minute guns from Punchbowl began and continued until School street or a little beyond had been reached.

Upon arrival at the cemetery the band marched around to the grave, the commandery swung into two lines, making an avenue for the passage through of the body and the other masons formed about the plot, Norman Gedge, master, and assisting masons, standing at the head of the grave.

Preceding the coffin were the chief mourners who took their places near the grave.

Then began the always impressive Masonic service, performed by Norman E. Gedge, master of Pacific Lodge and assisted in by Geo. Compton, master of Le Progres Lodge and Archie Gillilan, Passed Master of Hawaiian Lodge.

One part of the plot was devoted entirely to a large number of beautiful floral designs in all colors which were placed on the grave when the diggers had ceased their operations.

The funeral was witnessed by hundreds of people both along the line of march and at the cemetery.

"And what a wealth of enjoyment did the first detachment of America's army of invasion derive from this day at Honolulu." From On To Manila.

### TO SWELL TRANSPORT FLEET

Russian Steamer Dalny Vostok Chartered by U. S. Government.

Delayed Two Days By Typhoon—Brought 700 Japanese Immigrants—Due in San Francisco Nov. 4th.

The Russian steamer Dalny Vostok from Kobe, with about 700 immigrants for Honolulu, now lying in the stream, will in a day or two get away for San Francisco where she has been chartered by the United States Government as an army transport.

The Vostok is due in San Francisco on November 4th, so will stay here only as long as is necessary to discharge 600 tons of coal at the railway wharf; the 700 immigrants were landed in quarantine yesterday.

Twenty Japanese for the Coast are aboard and the steamer's crew numbers 62 men.

The Dalny Vostok was formerly the Brindisi of the Peninsular and Oriental S. S. Co., and carried the East Indian mail for several years. She was built by Boxford and Sons at Sutherland, England, in 1880 and was sold to a private Russian concern scarcely a year ago.

As a transport the Russian boat will be a useful addition to the government service. She is 387 feet long, 40 feet beam, 29 feet depth of hold and can maintain a speed of 12 knots. She is registered at 2226 tons and can carry 3500 tons of coal in her hold. The coal-bunkers carry 680 tons.

The deck works will be changed considerably in San Francisco to meet the needs of a transport and the Vostok will be painted white and receive the red, white and blue bands around her smoke-stack.

The Dalny Vostok left Kobe on the 5th instant but had to put back into a small harbor on the coast owing to the near proximity of a typhoon. On the 7th the wind changed favorably and the steamer put out to sea once more.

The officers of the Russian vessel are: Captain T. Eriksen, chief officer W. Bredihin, second officer Belobjefski and chief engineer A. A. Danie.

This was evidently the outcome of the testimony of the officers who said that Marshal pushed Akana when he was near the door. The case has been set for the 26th inst.

### KIHEI STOCKHOLDERS MEET

What Was Decided on at a Meeting This Forenoon.

Hawaiian Commercial to Grind Cane—Alexander & Baldwin Accepted as Agents—Various Matters Discussed.

A meeting of the stockholders in the Kihei Plantation Company was held in the Chamber of Commerce this forenoon. Some 36,000 shares, were represented by the forty or more present. H. P. Baldwin was in the chair and L. A. Thurston acted as secretary.

It was first voted to accept the agency of Alexander & Baldwin as per contract. It was also voted to accept the proposition of the Hawaiian Commercial Co. to have Kihei cane ground in the mill at Spreckelsville at the rate of \$12 per ton, a cheaper rate than has ever been made in the history of the sugar industry in the Hawaiian Islands.

This agreement will be sent to San Francisco in the China for the owners on the Coast to sign.

This matter of having the cane ground at Spreckelsville means about \$500,000 saved for that is the amount it would take to put up and furnish a mill in Kihei.

It is gleaned from this by many of the stockholders that there will be a calling in of only two-thirds of the amount in assessments.

The rumor that Mr. Baldwin had said he was willing to give back some of the money because he thought Kihei capitalized too high, was brought up and discussed. Mr. Baldwin denied having made any such statement.

Messrs. Thurston and Baldwin both made the statement today that there would probably be an amalgamation between Kihei and Hawaiian Commercial. It is supposed that this state of affairs is what made the stockholders at the meeting this morning vote for the grinding contract mentioned above. It is also held to mean that all the assessments will not be called in as soon as heretofore decided on.

### A Monkey Case.

John French appeared in the Police Court this forenoon on the charge of assault and battery on Mano, a native, and was fined \$5 and costs. The matter of the choice of a man to fill the vacancy in the Interior Department as Minister of the Interior occasioned by the death of Capt. J. A. King, came up for discussion but no decision was arrived at. The matter will be decided on either to day or tomorrow.

It was voted that a commission be issued to Charles F. Parsons, an attorney of Hilo, appointing him to the office of District Magistrate of North Hilo in place of Judge Barnard, resigned. Mr. Parsons is an attorney who has been in the country for some time and who has taken out letters of denization.

The Cabinet also discussed the matter of the District Magistrate of Wailuku, Maui. The Commission of Judge McKay expires shortly and it was voted that the present incumbent be corresponded with in reference to his acceptance of a new commission.

In reply to a question as to the progress of Minister Damon's work, President Dole answered:

"When Mr. Damon was in Washington, I received a letter from him. The only matter of public interest in the letter was the subject of the retention by him of the office of Minister of Finance. The government thought that such a course would be of advantage to Mr. Damon while on his mission in Italy and wrote him of their willingness that he should still retain the office if the authorities in Washington would consent. Mr. Damon wrote saying that the authorities were perfectly willing."

### DAVIS AND CLARK TALK

Suggestion That Hawaii's Constitution Be Organic Law.

Clark Voices the Local Sentiment for Territorial Organization Similar to Territories of the Mainland—Philippine Rule.

Washington, Oct. 13.—Senator Davis of Minnesota, chairman of the Committee on Foreign Relations, is of the opinion that Congress at its coming session will not attempt to establish civil government for the Philippines, but will leave the islands under the control of President McKinley, who will thus be enabled to continue military control for an indefinite period.

Senator Davis thinks President McKinley will also be permitted to continue the government of Cuba indefinitely, for he believes it will be several years before the Cubans can be trusted to manage their own affairs and maintain a stable government. He is confident Congress will take up Porto Rico early in the session and provide it with a civil government.

Hawaii, Davis thinks, will also receive the promised consideration and he suggests the enacting of the Hawaiian constitution, with some modifications, into an organic law.

Senator Clark of Wyoming has arrived in Washington after spending two months in Hawaii to study its needs. He predicts a bright future for the islands. In speaking of legislation in their interests he says: "The people wish Congress to bestow upon Hawaii a regular territorial system of government, such as is in force in Arizona and New Mexico. In my opinion, that is the most desirable policy to pursue when Congress comes to legislate for the islands. At present the government is very awkward and cumbersome. There is no municipal or county government and the people residing at a distance from Honolulu are put to great inconvenience, for public records are kept at no other place. Honolulu itself is making rapid strides in the march of progress. Even the most ardent royalists are forced to admit that American supremacy in the islands is the best thing that could have happened. The material development of Hawaii has been greatly assisted and accelerated by annexation. Coming under our flag has been of enormous benefit. It has given confidence to the people, and the guaranty of a stable government brightens their whole future."

Tomorrow the China from Yokohama is due, on Wednesday the Australia will arrive on time from San Francisco and the Miowera and Aorangi from the Colonies and Victoria, respectively also get here during the latter part of the week.

When asked about the matter this forenoon, Col. Mills said: "I know there is such a rumor and can say I believe it to be true although, as yet, I have not seen the order. Major Wood has been ordered to Jefferson Barracks in Missouri."
